

Family Pack There were 6 kids in my family so I decided to create this to honour us.

2 ml sample of each of the following:

Angel Whispers begins with a feathered brushing of bergamot, orange, and black pepper, which leads the way to an open powdery field of Lavender and Geranium, as well as fruity notes of Davana, Caraway, and Osmanthus, Vanilla, Patchouli, and a delightful dash of Chocolate.

Oriental 2004

Citrance My wish was to make a predominantly citrus perfume that wouldn't just fly off one's body. I accomplished this with the help of ladies Lavender, Chamomile, and Litsea who were heralded in by a bright hit of Bergamot, Lime, and Ginger and supported on a base of Cedarwood and Vetiver. Great staying power. **Citrus** 2008

Hedgerow

The light touch of Ambergris, Ambrette, Mate, and Green Tea holds this Citrus Floral together. Herbal flowers of Lavender, Geranium, and Rosemary create a soft powdery scent that softens the edges of the full citrus head notes: Petitgrain lemon, orange & bigarade, Bergamot, and Key Lime. Reaching the centre of the Maze, you gather up the leaves and herbal flowers tossing them in the air. As they twirl around, you twirl around, a young girl again. The fountain is bubbling, the sky is blue, and you feel uplifted by the aroma of the many fruit trees in the area. Hedgerow takes you back to simpler and more carefree times. **Fougère** 2010

Inspiration from the Sea You're in an exotic, warm location with turquoise waters and tall palm trees. You can smell the fruit and spice trees on your own private island. The sea is lapping at the shore and the whales and dolphins are within sight. They make you laugh, and as you do you breathe in the deep scent of the white flowers: Jasmine sambac, Neroli, Frangipani, and Lotus. This is a wonderful perfume for a mini-vacation in your mind. **Chypre** 2010

Midnight Blue This is a yummy gourmand scent, which dries down to a fruity grassy floral. Notes of Chocolate, Coffee, Myrrh, and Hay lay the foundation for the Heart of fruity Davana, Jasmine sambac, Mimosa, and Rose de mai. The Head notes add to the menu: Sweet Orange, Lemongrass, and Pimento leaf. They're going to have to create Sniffers' Anonymous for this scent. **Gourmand** 2007

Wonder 'Queen Jasmine' and her hand-maidens Mimosa and Pink Lotus dominate this sexy and sensual scent. With Rosewood, Linden Blossom, and Coriander leading the way, they sing and dance exquisitely together, all the way down to the earthy notes of Ambergris, Sandalwood, Oakmoss (steam distilled), and Patchouli. **Floral/Soliflore** 2007
