Wonder 'Queen Jasmine' and her hand-maidens Mimosa and Pink Lotus dominate this sexy and sensual scent. With Rosewood, Linden Blossom, and Coriander leading the way, they sing and dance exquisitely together, all the way down to the earthy notes of Ambergris, Sandalwood, Oakmoss (steam distilled), and Patchouli. Chypre/Floral 2007

Monica Miller says: Another Ooooh sexy! from me. Besides the obvious jasmine the pink lotus, ambergris, coriander, sandal and more adds an unusual dimension that makes me think (and feel) a spiritual union type feeling. Wonder is deep in a spiritual way although light/medium in fragrance tonality. Wonder is a very good name for it as it does put one (me anyway) into a meditative state of **wonder**.
